I was looking at a snapshot of a website on the Internet Archive that used to host a large listing of Warlords 2 scenarios ( [web.archive.org/web/20041228153619/http://...ar/scenarios/deluxe/](http://web.archive.org/web/20041228153619/http://...ar/scenarios/deluxe/) ). Most of them are on the Heeters site, but at least one is missing: Arthur.zip. Does anyone know anything about this scenario? Does anyone have a copy of it?
