Introduction

Enamored with the Warlords 2 style of unit sprites, I wanted to see something similar in Warlords 3!

Warlords 2 in THREE 1.0--Warlords 2 Style Units/Heroes for Warlords 3.

What this does:

Replaces the sprite graphics of Army and hero units with the style seen in Warlords II classic and Deluxe in Warlords DLR.

Should work in new GOG release.

For both Standard armies and STORMHEIM sets.

KH and standard Heroes

NO stats have been changed

SteamWarlord,

This looks really cool. I wish you had uploaded something like this 10 years ago.

I've uploaded a copy to the site and will add it to the downloads section soon.

Thank you for your kind words.

FYI Just added update v1.1

Wish I had the ambition 10 years ago

Got it out though just in time for the new GOG release of these games which I had no idea was going to happen.

From what I gather the release of Dark Lords Rising has the KH heroes and STORMHEIM sets which this includes graphics for them.

FYI I was looking at the castles, and in another thread, announced the release of Warlords3 Citadel BLGs, which makes citadels easier to identify on the map...
