Issue 202 (latest) has an interview with Steve Fawkner about the history of Warlords.

[www.scribd.com/document/446345140/202-pdf](http://www.scribd.com/document/446345140/202-pdf)

Starts on page 70. It's blurred out here after the initial page. I just linked so you can see the issue and there are other sites you can easily find via google that have a downloadable a pdf version.

At the end he says he's still keen to do a turn based Warlords 5 but as always he never says when. LOL

yeah its a bit boxed out lol. would be great to find a better copy. love seeing those classic warlords 1 screen shots. We played the demo of that on a mac for hundreds of hours lol. I believe the demo gave you 30 (or 50) turns max. we could build 1 ship in that time and thought it was amazing haha.,

Thank you, that's just great news to even hear from Steve...I couldn't find nothing in the last couple of (almost) years since Gems of War.

All the best 😊
