Re: http://lastcitadel.ru/Battles.aspx Posted by Aznagroth - 07 Feb 2012 06:06 Register on the site, then go and click on a warlord you want to challenge (red blinking crossed swords icon to the left of the player's name) and then click the challenge button at the bottom. A mail with your challenge will be sendt to that player and he will send you a reply with his armyset. You will then set up the game and mail the first turn to him. Feel free to challenge me if you want to do some testing.
